

NSH Symposium/Convention 2019 Speaker Policies

ABSTRACT SUBMISSION

All abstracts must be submitted electronically through the NSH Convention website, www.histoconvention.org, by the published deadline. Abstracts received after the deadline or with incomplete information will not be considered.

Speakers wishing to submit a hands on “wet workshop” must include a description of all equipment, chemicals and reagents being used at the time of submission. If the submission is missing this information it will not be considered by the committee. All speakers who are selected to present a wet workshop must follow the safety guidelines for workshops created by the NSH Health & Safety Committee. These guidelines are available on the NSH Convention website, www.histoconvention.org, or can be obtained by contacting the NSH Director Meetings & Education, Aubrey Wanner, Aubrey@nsh.org.

PRODUCT ENDORSEMENT

Individuals may use company products and equipment for the sole purpose of teaching scientific theory, techniques and information useful to the field of histotechnology. The program content and any material for handouts may not include catalogs, price lists or commercial material of any nature.

During activities of the Symposium/Convention, questions may arise concerning the quality of various commercially marketed products. Speakers are encouraged to express their opinions, but should be cautious in that specific factual statements may give rise to claims of product disparagement or endorsement. Speakers should not purport to represent the views of NSH with respect to any commercially marketed product.

HANDOUTS

NSH **requires** an electronic copy of a handout be provided to the NSH by the published deadline in speaker acceptance emails. Handouts should include the PowerPoint presentation being used to teach the workshop and any additional resource materials the speakers feels are relevant. Handouts must be the original work of the speaker and the speaker should hold the sole copyright to the work or obtained all necessary permissions or licenses from any persons or organizations whose material is included or used in the presentation.

Handouts are reviewed by the NSH Convention Committee Program Team to ensure they conform to NSH standards, include required references/citations, and do not include vendor specific or sales information (see Product Endorsement above).

NSH does require the original source file, eg. the PowerPoint file, so that it may be formatted to meet NSH layout standards for handouts. NSH will not edit handout content without the permission of the submitting speaker.
